Art Unit: 2635

1. This Office action is in response to the application filed September 15, 2003. This application claims the benefit of application 60/411,047, filed September 16, 2002. Claims 1-23 are pending.

2. Claims 1-23 are allowed.

3. The following is an examiner's statement of reasons for allowance: the claims recites a keyboard for use with a medical software program that includes two sets of keys with different distinguishing characteristics wherein the first set includes an icon and the second set includes an indication and wherein the first set controls an image display function and the second set controls an image navigation function. While various prior art references teaches some limitations, none teaches or suggests the combination. Freedman teaches a computer keyboard with icon keys, but there are no distinguishing characteristics between the keys and the keys do not perform the claims functions. Belzer teaches a keyboard with icon keys and color-coded keys, but does not teach the use of such keys for a medical software program or the particular claimed functions.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Albert K. Wong whose telephone number is 571-272-3057. The examiner can normally be reached on M-Th.
